

Streaming Zero-Shot Industrial Anomaly Detection with CLIP
Anonymous ACCV/LNCS-style paper scaffold

Final artifact: paper/paper.pdf

Result source: results/latest/ only

Results status: TODO / placeholder until results/latest/manifest.json is final.

No measured AUROC, AUPR, ECE, latency, or CRD-lite is claimed here.

P0 scope: MVTec AD, VisA; iid and bursty streams; prevalence 0.05;
epsilon in {0, 0.01, 0.05}; RareCLIP, PatchCore, WinCLIP, AnomalyCLIP.

TODO: Replace this PDF with a LaTeX-built ACCV/LNCS manuscript after real P0 runs.
